Autism Bridges**

kids on the move
empowering families, one kid at a time

We all want the best
childhood for our kids, but
life isn't perfect and
sometimes we
need a little help.

At Kids On The Move, we
believe in the potential of all
children and families.
We help families address the
unique needs of their young
children to build the
essential root system they
need to grow and reach
new heights.

Autism Bridges

Looking for Autism Support?

Autism Bridges is designed specifically for parents and children ages two to eight years old living with Autism Spectrum Disorders or similar developmental delays.

We recognize that this is a critical time of development for children, and it is often difficult for families to access needed services. Our goal is to provide parents a variety of low cost options to assist them and their families to “bridge the gap”. Families can design an affordable program to address specific needs by choosing from a variety of services including:

- Preschool
- Social Groups
- ABA Classes
- Home Visits
- Diagnostic Assessments
- Parent University Courses
- Medicaid Autism Waiver Therapy

Call 801.221.9930 or apply online for a FREE consultation.

Early Head Start

Need Parenting Support?

The Early Head Start program is designed to enhance children's physical, social, emotional, and intellectual development by supporting parents in their critical parental roles. The program aims to help children develop a life long love of learning.

Early Head Start services include: educational, social, medical, dental, nutritional, and mental health, along with parent involvement activities for families. Services are provided in home-based and center-based settings. We believe that parents play the most important role in their children's health and development, as they are their children's best teachers.

Children residing in Utah County under the age of three and pregnant mothers are eligible. Enrollment is based upon income eligibility and other qualifying factors.

The cost of involvement in the program is completely free. Early Head Start does not provide transportation to and from class, socializations, or other events. Parents in the EHS program have the opportunity to receive bus tokens when available and upon request.

Call 801.221.9930 or apply online for Early Head Start.

Early Intervention

Questions About Your Child's Development?

Babies learn and grow at their own rate and some babies need a little extra help. Since your baby's brain and body grow quickly during the first three years, it's important to get help early.

Early Intervention provides services to infants and toddlers 0-3 in the Alpine School District. Services include physical therapy, occupational therapy, speech and language therapy, hearing and vision assessment, nursing, nutrition and parent training classes. Early Intervention is designed to help parents maximize their child's learning and development.

We provide a FREE evaluation of your child's development in the following areas:

- Physical development
- Vision and hearing
- Feeding
- Social and emotional development
- Communication and language
- Learning, problem solving and play skills

Many children with a diagnosed medical condition also qualify for services. Call 801.221.9930 or apply online for a FREE consultation.

Get Involved

Kids On The Move is a non-profit organization. We've been providing high-quality services to young children and their families since 1987. We rely on donations of time, money, and materials to supplement state and federal grants that support our programs. We welcome and need your involvement!

The Noorda Library

Our library offers resource materials on parenting, child development, and special education. Developmental toys are also available for checkout.

Child Care

Our Child Care Center is a fully-licensed program committed to providing high-quality care and free evening child care during our classes.

Check out more about our services and classes at KOTM.org.
